| <a href="#">"Payne" Torsion Viscometer.</a> | Developed with the ceramics industry in mind, (but easily modified for other use), the "Payne" torsion viscometer is simple to use and maintain. The machine has three levelling points for easy adjustment, a PTFE bearing and a unique sample table which is raised into position. The standard model is supplied complete with a 30swg torsion wire, an 11/16" (17.5mm) bob and sample cup. |
