81434508	666053-0D2 ARO 1/2" plastic double diaphragm pump PRO series 1/2" Pro series plastic - Industrial-grade ARO diaphragm pumps from the Pro series offer high performance and operational reliability. With flow rates of up to 897 l/min and a wide range of material and connection configurations, we have the right metallic and non-metallic pumps for your application needs. · Powerful - motor design ensures optimal air efficiency · Reliable - the patented unbalanced ARO air valve ensures operational reliability · Versatile - Multiple connection options for your application needs · Environmentally friendly - screw design for leak-free pumping of liquids · Maintenance-friendly - Easy access to ball check valves and liquid caps for maintenance and repairs Technical data: · Max. flow rate: 40 L/min. · Max. operating pressure: 6.9 bar · Suction and pressure connection: 1/2" NPT · Material medium side: polypropylene · Material air motor: polypropylene · Material hardware: stainless steel · Material membrane: nitrile · Material ball: nitrile flex-check · Max. solid size: 2.4 mm · Weight: approx. 4.9 kg · ATEX compliant: No
46724225	AF0443S21GN47 ARO Scooping Piston Pump System 43:1 AFX Series replaces: 67120-P43 The heart of the ARO-Force piston pumps are superior air motors with our proprietary AFX™ technology. With only five moving parts, our air motors are extremely advanced yet simple in design. No other air motor on the market offers the precise performance, flexibility and simplicity of an AFX™ air motor. · Superior performance with abrasive media · The exclusive ceramic coating "Ultra Coating" - applied to the plunger pistons and the cylinder tubes - extends the service interval enormously, even with abrasive media · Chrome-plated stainless steel pistons for maximum resistance to corrosion. · Eight packing options are available, including "Ultra-High Molecular Weight Polypropylene (UHMWPE), for even better material compatibility and maximum abrasion resistance. Technical data: · Piston pump AF0443S21GN47 · Compression ratio: 43:1 · 4" piston stroke · Piston size: 4 1/4" · Compressed air inlet pressure: 0 - 10.3 bar · Final pressure: 0 - 450 bar · Delivery capacity: 2.8 L/min.
