New propeller	We use the attached propeller in our project, we want to enlarge the propeller diameter for our new work, but we request that it meet the items listed below by enlarging the propeller diameter. The motor we use is 3 phase asynchronous 3000rpm; 90dB of sound is generated. Can you provide the propeller information that you can suggest suitable for these features? higher axial thrust, lower noise, Higher suction power It will be mounted in a bucket with a diameter of 80-90 cm.
