MSO5104	and I would like to receive an offer on all available option packages for this model. In particular, I kindly request you to specify the options that we can use all the features of the device such as logic analyzer probes, all serial analysis options, internal signal generator option, memory increase option. In addition, I would be very pleased if you specify the lead times of the device, optional probes and optional licenses.
MSO5204	MSO5000-BND is currently included free of charge (promotion valid until the end of March 2022)
