Setting device for ESWS-10	
Particles dispersed inside the small pump.	This is one of the pumps used in a 7" press. The pump, pictured in the attachment, consists of two parts: a large pump and a small pump. Our maintenance team inspected the large pump and found no problems, but the inside of the small pump was damaged. Can we obtain the part that is disassembled inside the small pump? If we cannot obtain the part, can we obtain the small pump itself?
